

COFFS GOLD CONGRESS CANCELLED

It is regrettable that the committee has had to address the many issues of the COVID 19 pandemic and make the inevitable decision to cancel this popular and iconic event. After much consultation and consideration of government health decisions as well as bridge based alternatives, the decision was inevitable. Issues around social distancing and uncertainty of state border closures have been paramount in final decision making which will disappoint many members and regular visitors to our unique congress which has been described by Tony Howes as a premier event, socially connected to Coffs Harbour.

Affected parties will be advised by 1st June 2020 and any doubt will be removed for those booking travel and accommodation.

Finally a quote Phil Houlton

"There are so many aspects of our social fabric which have been damaged by this pandemic, and we can do nothing except accept the inevitability that we are yet another casualty"

Lets look positively towards 2021.
